FA-SURF 400H **100% electric**
AUTONOMOUS NEW ENERGY PLEASURE BOAT

www.fa-leisure.com

PRODUCT ADVANTAGES

Heavy-duty inflatable boat hull

Easy transport & storage

Stainless steel ladder

Equipped with water slides

Advertising-ready panels

30-minute quick assembly

Intelligent joystick control

Dual motor lifting system

Smart cloud platform

Safety barrier

Automatic safety detection

GPS positioning

Bluetooth audio connection

100% electric

PRODUCT PARAMETERS

SPECIFICATIONS	Dimensions	L 350 × W 200 × H 194 cm
	Passengers	4 passengers
	Hull Material	Double-layer dropstitch with welding seams
	Inflatable Model Weight	90KG
	Air Chambers	8
	Maximum Load-bearing Capacity	600KG
	Minimum Water Level	30cm
	Standard Package	Battery / battery charger / propellers / control system with cloud platform / GPS barriers / two peddle system
MOTOR & POWER SYSTEM	Motors	2000W × 1
	Battery	48V 75AH
	Battery Type	Ternary lithium battery
	Control System	Joystick control
	Battery Charging Time	4 hours (Replaceable battery)
	Runtime	3 hours
	Speed	8 km/h

SMART MANAGEMENT CLOUD PLATFORM

Through our smart management cloud platform, you only need a mobile phone or a computer to realize the full process of intelligent management of all boats, including task scheduling, real-time status monitoring, order management and fault management. The PC and mobile terminals are interconnected and compatible with Android and IOS.

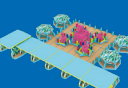

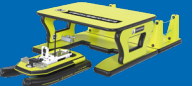

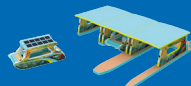

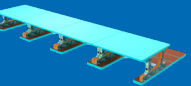

-  **Order management**
-  **Tour package settings**
-  **Order timeout reminders**
-  **Operational data statistics**
-  **Data dashboard & Real-time monitoring**
-  **Boats management**
-  **Dock management**
-  **Fault management & Maintenance**
-  **User and role management**

ABOUT US

-  **15** years of experience in high-end water leisure products
-  **100+** different countries
-  **600+** global customers
-  **140+** patents accumulated
-  **35,000** square meters factory
-  **45** inspection processes

OUR PRODUCTS

- AI intelligent boat system**
 -  Smart management cloud platform
 -  Boat autonomous driving system
 -  Boat assisted driving system
- Smart water leisure series**
 -  Smart luxury catamarans
 -  Smart electric motorboats
 -  AI-powered autonomous boats
 -  Smart floating platforms
- Smart waters operation and maintenance series**
 -  Water quality monitoring robot
 -  Water surface cleaning robot
 -  Water rescue robot
 -  Movable automatic charging dock
 -  Movable smart dock
